Professional Summary

Computer Science graduate (Feb 2023) with **foundational skills** in data analysis and reporting (SQL, Power BI/Power Query, Excel) gained through coursework and self-study, and practical mobile app development (Flutter/Dart, Firebase). Completed a 6-month Tamheer as Technical Support Specialist, closing approximately 280 support requests and improving device reliability. Open to entry-level roles where I can contribute, learn quickly, and deliver measurable impact. **Familiar with** data cleaning and basic modeling for reporting.

Skills

- SQL
- Power BI (Power Query)
- Excel
- Python
- Flutter/Dart
- Firebase (Auth/Firestore)
- REST APIs
- Git
- Office 365
- Teamwork & Communication

Projects

Rafiq Al-Muslim - Flutter/Dart | Mar 2025 - Jul 2025

GitHub: github.com/Abdulaziz810/Rafiq-Al-Muslim

- Built a prayer-times app using Riverpod, Adhan, Geolocator, and Timezone for precise calculations with offline fallback.
- Implemented Qibla compass and configurable local notifications (Athan), plus Arabic/English UI and onboarding.
- Stored settings and content locally (SharedPreferences, SQLite); robust permission and connectivity handling.
- Used Dio/HTTP for external services; integrated Hijri/Gregorian calendar views.
- For full details, visit: abdulazizmuteb.netlify.app

Masari - Trip Cost Tracker - Flutter/Dart | Jul 2025 - Aug 2025

GitHub: github.com/Abdulaziz810/Masari

- Implemented trip logging with foreground GPS and precise distance calculation (location, geolocator).
- Managed state with Provider; stored trip records in Hive and app settings via SharedPreferences.
- Built interactive charts for trip metrics using fl_chart.
- Exported trip history to CSV and enabled native sharing (share_plus).
- For full details, visit: abdulazizmuteb.netlify.app

Experience

Technical Support Specialist - Northern Border University (Tamheer, Full-time)

Arar, Saudi Arabia • Dec 2023 - Jun 2024

- Completed approximately 280 support requests (≈ 11 /week) for faculty and staff.
- Handled printer setups, hardware replacements, Windows/app updates; escalated network issues to the Network team.
- Improved device reliability through OS refreshes, storage migrations, and routine updates; tracked asset handovers in Excel/Word.
- Collaborated with the IT team and faculty to prioritize and resolve requests efficiently.

Education

B.Sc. in Computer Science - Northern Border University - Feb 2023

GPA: 3.9/5.0

Certifications

- Introduction to Data Analytics - IBM (Coursera) - Oct 2024
- Preparing Data for Analysis with Microsoft Excel - Microsoft (Coursera) - Oct 2024
- Technical Support Fundamentals - Google (Coursera) - Aug 2024
- Oracle Database SQL - Fundamentals (60h) - Abad Network for Training - Oct 2023
